NEWSLETTER No. 4

IO4 – R.APP APPRENTICESHIP MOBILITY VADEMECUM FOR VET AND ENTERPRISES TUTORS

In September 2020, the development of the project IO4 was completed. The Vademecum is available for download in the "e-Learning Desk" section of the R.APP website in all project languages.

The Vademecum will effectively support VET and Enterprises Tutors during the overall apprentice's mobility process; how learning mobility processes should be organised and quality assured in the hosting enterprise context and will also provide examples of resource materials and sources available for the mobility path success and for the envisaged mobility target.

Before the validation of IO4, a "Testing Phase" was held through workshops attended by over 80 in-company mentors and VET Tutors, who expressed their opinion on the quality and usefulness of the Vademecum. On the basis of their evaluations, the Vademecum has been reviewed in some of its aspects and has been validated in its final version.

R.APP – European Roadmap for Apprenticeship Effectiveness and Quality Governance nr. 2018-1-IT01-KA202-006806

Due to the COVID-19 restriction the R.APP Joint Staff Training Events has been held in on-line mode from 19th October until 23rd October 2020.

The training event, which involved the staff of the partner organizations, had the objective of transferring some good practices adopted in Germany on how to create territorial synergies and sharing intents aimed at empowering the VET systems (VET providers / schools) towards a wider diffusion of apprenticeship at company level. The good practices presented were the following:

Digital apprenticeship fair – the creation of an online fair for the promotion of apprenticeships in companies

Jobstarter project – a National Project with activities to raise the number of apprenticeships among companies/SMEs – benefits for companies to take on board apprentices - input and discussion

Network Q 4.0 – A Project carried out by the Bildungszentrum der Wirtschaft Berlin on collaboration with regional companies with

the aim to adapt apprentices qualifications to digital change.

LOCAL MULTIPLIER EVENTS AND FINAL EVENT

The 6 Local Multiplier Events for the Dissemination of the 4 Intellectual Outputs of the project and the Final Event were held both in presence and in online mode according to the COVID-19 restrictions of each country and each period.

To reach the number of participants in the Local Multiplier Events, some partners have organized more meetings. This was also done for the Final Event, for which 4 meetings were held with apprenticeship stakeholders.
